*As a reminder: For this award, a **sponsor** is a person in a leadership position who actively and visibly supports, advocates and protects the career advancement of more junior faculty members and fellows. Sponsorship activities focus on increasing visibility, credibility and access to professional networks, and may include (non-inclusive): nominating faculty members or fellows for awards, editorial boards, meeting/session chairs, and high profile institutional and national committees. A sponsor may also play a key role in coaching faculty members and fellows for leadership roles. While a mentor focuses on career development, a sponsor focuses more on providing opportunities for high level career advancement.*

PLEASE PROVIDE THE FOLLOWING ON THIS FORM OR AS AN ATTACHMENT:

1. A statement of nomination describing specific efforts/activities the nominee has made to **sponsor** the careers and advancement of faculty and fellows in the Johns Hopkins DOM as well as the impact these efforts have had in creating opportunities for all. Brief descriptions with specific examples from prior and current sponsees should be listed in this document (1000 words or less).
2. Provide a list of sponsees with their current position (10 or less)
3. A current CV for the nominee
4. Optional: 1-2 additional supporting letters from sponsees, specifically faculty members at Johns Hopkins or other institutions (each 500 words or less)

PLEASE RETURN THE NOMINATION FORM AND SUPPORTING DOCUMENTATION TO:

Department of Medicine Task Force on Women's Careers in Academic Medicine
Charles Harris (charr142@jh.edu) and **Dr. Eva Tseng** (etseng3@jhmi.edu)

Deadline: March 30, 2026
